

## **French at St Mark's**

As with English, the purpose of learning a language is to be able to communicate effectively with others.

Above all, we want our pupils to have a curiosity and confidence about learning another language. We want them to enjoy their acquisition of simple words and phrases and the ability this gives them to communicate orally and in writing. We want pupils to recognise and embrace the differences in pronunciation and grammar and be keen to try to remember and use what they have learned.

Pupils will leave St Mark's with an enthusiasm for language-learning and a "can do" attitude.
