

Communication and Language

The children will learn how to listen carefully and why it's important. They will practice this by listening to stories, nursery rhymes, and talking during story time.

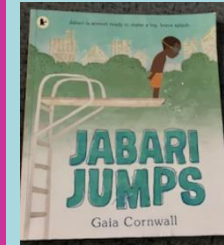

Personal, Social and Emotional Development

The children will learn to see themselves as important. This will help them build respectful relationships and understand new routines.

Physical Development

The children will learn how to manage their school day, like lining up and sitting safely. They will also be taught to take care of themselves, such as by practicing personal hygiene and putting on and taking off their own coats, shoes, and clothes.

Read Write Inc

Children will use Read Write Inc materials every day to learn about phonics. This will help them with reading and writing as they continue in school.

Welcombe class Termly Curriculum Overview Autumn Term 2024

Busy Learning

Continuous provision gives children a chance to practise what they've learned in lessons. They will use this knowledge during busy learning times, with different activities each week to create many learning opportunities.

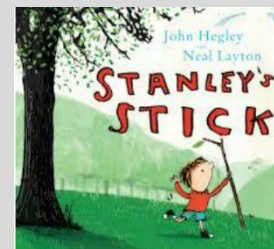

Maths

In maths, we will use Numbersense to teach the children how to count and quickly recognise numbers up to 10. They will also learn about 2D and 3D shapes.

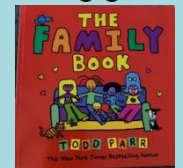

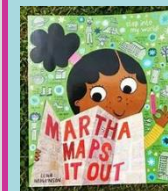

Expressive Arts and Design

The children will make up stories during pretend play and create art using various materials and junk modelling. This will help them start expressing their creativity.

Understanding the World

The children will learn about their family and community, including names of people they know. They will also explore different places, like the forest school. They will learn about healthy eating and making good lifestyle choices.

Welcombe Class Home Learning

Autumn – 2024-25

All children are expected to complete the following each week:

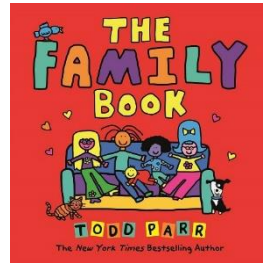

1. **Reading** – Children are expected to read 5 x per week with an adult. Parents and carers are required to evidence 5 reads in Reading Record.
3. **Numbers** – When possible, parents are advised to seek learning opportunities in everyday life that involves numbers up to 10. Ask the children if they know what number is being presented when you see it outside of school.

Homework projects: Activities and projects will be set termly. Homework projects consolidate learning taking place in school. Studies have shown that home learning can be extremely important in a child's cognitive development. It has been proven that your engagement at home with your child's home learning accelerates their progress.

Please choose 1 homework project to complete this term (as well as your weekly reading and number practice).

We are inviting parents into school on **Tuesday 19th November at 2.30 pm** to look at homework projects. This will be an opportunity for pupils to show their learning, books and for home learning to be celebrated. Thank you for your ongoing support with your child's home learning. **Mr Cleaver**

Project 1 – Our Families

Starting week two, the children will be reading a book called “The Family Book” by Todd Parr. This book will look at how different and unique families can be, showing that families come in many ways.

Children are asked to bring in photos of their families doing something outside of school. This is to be used to create a display showing how wonderful all the different families of Welcombe class are. You can be as creative as you want with the photos.

Project 2 – Making amazing models

As Welcombe class explore their immediate world around them. The concept of art is being taught through what they find in their everyday life, using natural materials or materials they may find at home.

Children will be asked to produce a model of whatever they wish to make, using resources found at home. This could include cardboard boxes, or even sticks from the garden. The result will be each child at Welcombe class showing their interests through their art.

Project 3 – Christmas Tree Decoration

Christmas is an exciting time for the children, the presents, festivities and the decorations are all enjoyed.

Children will be asked to make their own Christmas decorations to decorate our classroom Christmas tree. We are looking for the children to explore what they would want on a Christmas decoration. We look forward to seeing the result of the tree with each child's work on the Christmas tree.
